

LEONARDO TABORDA DE OLIVEIRA

MANAGEMENT & FRONT-END DEVELOPER

PERSONAL PROFILE

I am Leonardo Taborda, currently working as a Junior Digital Solutions Associate at Bosch Campinas, acting as a Front-End Developer. I have a degree in Systems Development from SENAI and in Energy Management and Energy Efficiency from FATEC Campinas.

I have practical experience in Front-End development, process automation, and UX/UI design. I enjoy combining technical knowledge and creativity to deliver functional and innovative solutions. I believe that the combination of strategic vision and user-focused design is the key to creating real impact.

Outside of work, I am interested in travel, sports, and anything that stimulates my curiosity. I am always looking to grow and build something meaningful.

WORK EXPERIENCE

Front-End Developer — EWAK (Tool Management)

Bosch Campinas | Oct 2025 – Apr 2026
